

# Property Security Services, Inc

We Guard – We Protect – We Secure

## About Us:

Property Security Services, Inc is an innovative security company from Los Angeles, CA. We provide high quality security guard services throughout Southern California. We pride ourselves on our high standard of service. Our top priority is to insure the safety and security of our clients. At Property Security Services, Inc we offer a variety of services including residential, industrial, commercial, construction and corporate security.

When security is a high priority, anyone can benefit from the services of a night watchman. One of the duties of a security officer is to conduct routine inspections of the property. Depending on the size of the establishment, the watchman may either walk or ride around the property to ensure there is no sign of suspicious activity.

Commercial-Residential-Industrial & Construction Security Specialists

## **SECURITY GUARD WITH TRAILER UNIT SETUP ON-SITE**

*Property Security Services, Inc offers a portable security headquarters (trailer), where the Security Officer can monitor the electronically-controlled alarm system. Now you can secure your commercial or residential construction site twenty-four hours a day, everyday, with a customized security package designed to your exact specifications. Property Security Services, Inc is the security industry's leader in security of construction sites. Innovative, specialized technology and equipment enables our officers to efficiently oversee large areas from a single command post.*

*Property Security Services, Inc offers On-site trailer packages with officer who patrols the grounds when your employees leave for the day. These officers observe and report any site disturbances by documenting them on daily activity reports. We have taken an unprecedented stance in our trailer packages by providing a superior level of accountability on jobsites by equipping all trailers with innovative, highly sensitive alarm panels. These specially engineered panels are linked wired or wirelessly to strategically-placed smart sensors around "hot zones" and other client-specified locations on the site. When an alarm is triggered, the trailer officer is alerted by the Command Center and is dispatched to investigate the disturbance. By adding this extra level of security, the communication gap between the trailer officer, the client, and Property Security Services, Inc is closed. The combination of the physical deterrence of a security officer along with technological vigilance enables us to provide an integrated solutions.*

*Property Security Services, Inc specializes in on-site construction security. We serve the construction industry including property owners, real estate developers, building contractors and trade subcontractors. Security on a project is managed by placing infrared sensors around the perimeter of the site, large warning signs as well as highly visible security trailers.*

*While consistently expanding our services, We continue to offer reliable, professional security officers in the industry. Our expansion Throughout California demonstrates our desire to continue providing high quality, effective and affordable security solutions.*

*When you hire Property Security Services, Inc to protect your construction site or abandon property, we provide complete care solution with trained security officer with the tools & support at much lower cost than our competitors. We propose to provide & install fully qualified Unarmed Security Officers to cover the jobsite from your designated hours and during designated holiday's staffed at your direction.*

- ✓ *Each security officer is provided with a telephone or radio and shall make random patrols around the jobsite.*
- ✓ *An electronically controlled alarm system consisting of an alarm control panel and infrared sensor eyes strategically located around the perimeter of the jobsite.*
- ✓ *A portable security headquarters (trailer), where the Security Officer can monitor the electronically-controlled alarm system.*
- ✓ *All portable security headquarters are equipped with fire extinguishers and first aid kits.*
- ✓ *Lighting to cover the security headquarters at the jobsite.*
